Dear Fred,

Well um, yes well, you see I don't like the idea of working with G.P. so there's only one alternative, now, isn't there? So it looks like that, if you can put up with me.

At the moment, the F.R.C. people I've spoken to are also against paying yet more money to F.R.A., and we have come to a quick decision to continue under the name of F.R.C. in our local areas, and join in with the national rallies, etc. The only trouble with that is that when chatting up M.P.s and the press, one has no large/national group to refer to. This is also so, when doing posters, as you can see from the one enclosed, so what I would like to put to you is that I continue doing my posters, only using the C.I.B.s address. This should be very good for you, as you will be able to build up your membership figures for nothing - yes absolutely nothing.

I would also like to put forward the suggestion that as there will be no more F.R.N.s, a need may arise, in fact I already think there is one, for a more comprehensive paper that can be continued after we get independent stations. I would like to see this come to be; but for the next few months, I have my hands full with sorting out the mess that is bound to arise. I am, or will be prepared to get this off the ground, even if it means starting with just a news-sheet.

At the moment though, I don't want anything to be official. I've contacted all the local F.R.C. organisers to see what they have to say - of course - there's been nothing from his Madness. I'd better tell you now, that I don't really want to attend your committee meetings, as I think the cost of getting up to them is a complete waste and could be better spent on stamps.

I don't really want the responsibility of memberships and press coverage (national) because I think more can be achieved by brainwashing the locals into writing to their M.P. and local newspaper and so on. And I can get my leaflets distributed to most parts of England.

I'd be very interested to hear what you have to think

about all this, and as soon as possible - the idea being to keep 6 years ahead and in the black of Alex and Geoff, because quite honestly, I don't really think wandering around Holland will get free Radio in England.

It was always me that used to nag Alex into amalgamating with you anyway, but don't expect him to admit to it.

Now have a good laugh about it - I only wish I could have seen Alex's face when they showed him what I've done!!!

Yes, I am as mad as he is, but then what's madder than trying to run a radio station from a boat!!!

Yours sincerely,

Roz.

Roz Barber.
