It's here! It's August 10th! It's the 1969 Independent,
Free Radio Rally, at Trafalgar Square, London.

The rally is being organised by the National Commercial
Radio Movement, in conjunction with the Free Radio Campaign,
Bristol Free Radio Movement, and any other organisations that
wish to join the "United Free Radio Organisations".

We are inviting people who are really interested to help us
in the organisation of the rally, by writing to us with a S.A.E.
marking the envelope "RALLY HELP".

We have invited speakers from the former off-shore stations
a number of M.P.s have been invited, and a letter has been sent to
all Radio One d.j.s inviting them to speak. A list of speakers
will be issued later, but amongst those people already listed, there
will be speakers who are LISTENERS! We consider the listener to be
the most important person as far as radio is concerned, because
without the listeners, no radio station could operate. There will
also be an opportunity for other listeners to ask questions about
radio broadcasting.

This is to be the biggest-ever public demonstration for the
choice of free, independent radio in this country. It is going to
be bigger than the demonstration at Liverpool Street Station on
August 14th 1967.

The subjects to be discussed at the rally will be the future of
broadcasting in this country. This will cover a wide range of topics
from the B.B.C.'s re-organisation plans, the Conservative Party's
scheme for local radio, availability of frequencies in the future,
commercial viability of the various types of stations.

People are already planning to bring car and mini-bus loads of
people into London from places such as, Plymouth, Oxford, Leicester,
Bristol and many parts of Essex. Scotland are also sending down
their representatives to join the biggest free radio crowd, ever.

A reminder:
